

Cat Litter Box Rescue Guide — Action Checklist

PRINT THIS PAGE AND KEEP IT SOMEWHERE VISIBLE | GENERATED MAY 12, 2026

RULE OUT MEDICAL CAUSES

- ☐ **Schedule a vet appointment for urinalysis and bloodwork within the next week to rule out urinary tract infection, kidney disease, and diabetes.:** Schedule a vet appointment for urinalysis and bloodwork within the next week to rule out urinary tract infection, kidney disease, and diabetes.
- ☐ **Tell your veterinarian that your adult cat has started urinating outside the litter box and request specific tests for medical causes.:** Tell your veterinarian that your adult cat has started urinating outside the litter box and request specific tests for medical causes.
- ☐ **If you own a male cat, mention any straining to urinate, crying during urination, or producing only small urine amounts as emergency symptoms.:** If you own a male cat, mention any straining to urinate, crying during urination, or producing only small urine amounts as emergency symptoms.
- ☐ **Budget \$100-\$300 for the vet visit to rule out dangerous medical conditions before assuming this is a behavioral problem.:** Budget \$100-\$300 for the vet visit to rule out dangerous medical conditions before assuming this is a behavioral problem.

AUDIT YOUR LITTER BOX SETUP

- ☐ **Count your current litter boxes and add one more box than the number of cats you own to follow the N+1 rule for proper territory coverage.:** Count your current litter boxes and add one more box than the number of cats you own to follow the N+1 rule for proper territory coverage.
- ☐ **Replace any covered litter boxes with uncovered ones since covered boxes trap ammonia fumes and allow ambush opportunities.:** Replace any covered litter boxes with uncovered ones since covered boxes trap ammonia fumes and allow ambush opportunities.
- ☐ **Measure your cat from nose to base of tail and buy a litter box that is at least 1.5 times that length for adequate sizing.:** Measure your cat from nose to base of tail and buy a litter box that is at least 1.5 times that length for adequate sizing.

- ☐ **Fill each box with 2 inches of unscented clumping litter, scoop it daily, and perform a full litter change every week to keep boxes clean.:** Fill each box with 2 inches of unscented clumping litter, scoop it daily, and perform a full litter change every week to keep boxes clean.

REDUCE STRESS AND ANXIETY

- ☐ **Move all litter boxes away from your cat's food bowls, loud appliances, high-traffic hallways, and windows where outdoor animals might be visible.:** Move all litter boxes away from your cat's food bowls, loud appliances, high-traffic hallways, and windows where outdoor animals might be visible.
- ☐ **Plug a Feliway diffuser into the room where your cat spends the most time and leave it running continuously for 2-3 weeks before evaluating results.:** Plug a Feliway diffuser into the room where your cat spends the most time and leave it running continuously for 2-3 weeks before evaluating results.
- ☐ **Add vertical space throughout your home using cat trees, shelves, or window perches so your cat can climb to feel safer and more secure.:** Add vertical space throughout your home using cat trees, shelves, or window perches so your cat can climb to feel safer and more secure.
- ☐ **Play with your cat for 10-15 minutes daily using interactive toys like feather wands or laser pointers to reduce stress and anxiety.:** Play with your cat for 10-15 minutes daily using interactive toys like feather wands or laser pointers to reduce stress and anxiety.
