

Hvac Emergency Guide V1 — Action Checklist

GENERATED May 13, 2026 | Print this page and keep it somewhere visible

- ☐ Avoid the \$2,000 repair bill. Maintain your system. Negotiate with confidence.
- ☐ It is also for first-time homeowners who did not grow up learning how to maintain a heatin...
- ☐ The "if it ain't broke, don't fix it" approach to HVAC costs more in t...
- ☐ Read Section 1 first. It is the highest-value routine maintenance you will ever do and it ...
- ☐ Sections 2 and 3 are for when you already have a problem or a quote. If you are in an emer...
- ☐ Most HVAC failures are not sudden. They are the result of gradual degradation in component...
- ☐ Filter cost: \$12–\$25 for a standard 20×25×1 inch filter. Buy in bulk — a 6-pack costs less...
- ☐ Twice a year — in early spring before cooling season and in early fall before heating seas...
- ☐ Turn off the power to the outdoor unit at the disconnect box.
- ☐ Hose off the condenser coil (the fins on the outside unit) to remove leaves, dust, and deb...
- ☐ Trim any vegetation to keep 2 feet of clearance around the unit.
- ☐ Check the condensate drain line (a small PVC pipe near the indoor unit) and clear any visi...
