

Cat Night Zoomies Fix — Action Checklist

PRINT THIS PAGE AND KEEP IT SOMEWHERE VISIBLE

AUDIT YOUR CAT'S CURRENT ROUTINE

- ☐ **Track your cat's daily awake hours by recording when they sleep, play, and zoom for at least three consecutive days to identify the energy imbalance.:** Track your cat's daily awake hours by recording when they sleep, play, and zoom for at least three consecutive days to identify the energy imbalance.
- ☐ **Log when your cat's first zoomie episode occurs each night and note what was happening in your home at that exact moment.:** Log when your cat's first zoomie episode occurs each night and note what was happening in your home at that exact moment.
- ☐ **Count how many structured play sessions your cat receives on weekdays versus weekends to reveal how much hunting energy is being released.:** Count how many structured play sessions your cat receives on weekdays versus weekends to reveal how much hunting energy is being released.
- ☐ **Identify your cat's largest meal timing and compare it to when zoomies start to see if meals are too early or unlinked from rest.:** Identify your cat's largest meal timing and compare it to when zoomies start to see if meals are too early or unlinked from rest.

RUN THE EVENING PLAY PROTOCOL

- ☐ **Schedule a structured play session 2-3 hours before your own bedtime using a wand toy like Da Bird! or Cat Dancer for maximum hunting engagement.:** Schedule a structured play session 2-3 hours before your own bedtime using a wand toy like Da Bird! or Cat Dancer for maximum hunting engagement.
 - ☐ **Run play in three 5-7 minute bursts with 2-minute rest periods between each to fully tire your cat without overstimulating them.:** Run play in three 5-7 minute bursts with 2-minute rest periods between each to fully tire your cat without overstimulating them.
 - ☐ **Let your cat successfully catch the wand toy at the end of each play burst to complete the hunting loop and release the pent-up instinct.:** Let your cat successfully catch the wand toy at the end of each play burst to complete the hunting loop and release the pent-up instinct.
-

- ☐ **End every evening play session with a treat or small meal to mimic the natural post-hunt eating sequence and signal rest time is coming.:** End every evening play session with a treat or small meal to mimic the natural post-hunt eating sequence and signal rest time is coming.

RESET THE FEEDING SCHEDULE

- ☐ **Purchase an automatic feeder to remove yourself from nighttime feeding so your cat no longer associates your movement toward the kitchen with getting food.:** Purchase an automatic feeder to remove yourself from nighttime feeding so your cat no longer associates your movement toward the kitchen with getting food.
 - ☐ **Set the automatic feeder to dispense the largest meal of the day 30-60 minutes before your target bedtime to reinforce the post-hunt meal timing.:** Set the automatic feeder to dispense the largest meal of the day 30-60 minutes before your target bedtime to reinforce the post-hunt meal timing.
 - ☐ **Feed your evening meal at the same exact time every night because cats respond strongly to routine and consistent scheduling builds strong associations.:** Feed your evening meal at the same exact time every night because cats respond strongly to routine and consistent scheduling builds strong associations.
 - ☐ **Avoid using your hands or feet as play objects so your cat learns that catching happens only with toys and not with you.:** Avoid using your hands or feet as play objects so your cat learns that catching happens only with toys and not with you.
